Introduction to Windchill PDM Essentials 10.2 for Light Users

Overview
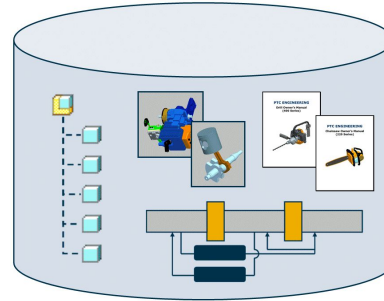

Course Code	WBT-4272-0
Course Length	8 Hours

In this course, you will learn how to navigate and view information within Windchill PDM Essentials. You will also learn how to access the PDM Essentials environment, view product information, use PDM Essentials' visualization tools, manage assigned tasks, and perform basic work management functions.
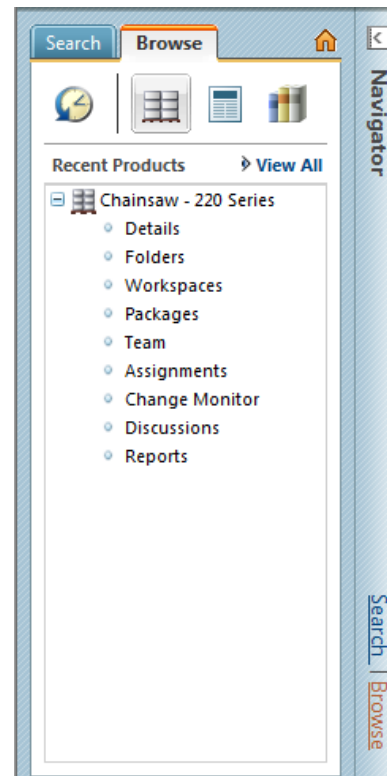

After completing the course, you will be able to complete basic PDM Essentials tasks and activities, as well as have a better understanding of how to use the PDM Essentials system.

At the end of each module, you will complete a set of review questions to reinforce critical topics from that module. At the end of the course, you will complete a course assessment in Pro/FICIENCY intended to evaluate your understanding of the course as a whole.
